As good as the kids remembered!

My kids remember Market Day French Toast Sticks from their elementary school days. They are high schoolers now, and they report the product measures up to their memories!

The best French Toast Sticks!

These are the best ever, the French Toast Sticks of my kids' youth! We found out we could order directly from MD, 15 years after the kids finished elementary school, where we used to order. My kids lived off these, and were all happy to have them again after all this time, and for them to be as thick and delicious as ever. Order some NOW!

25 YEARS LATER I HAD A FLASHBACK OF EATING THESE

I literally just was transported back to being 11, in middle school, it was 5:50 a.m. in the Chicago winter, so you know it was cold, and dark, and I had MTV on the tiny tv in the kitchen to keep me company because I didn't want to wake my parents while getting ready for school. I would put 5 of these on a plate. Eat them with a big glass of milk while Deep Blue Something's Breakfast at Tiffanies played very softly. And then I'd get dressed and stand out at the bus stop for 8 minutes in the 11 degree weather in my blue starters jacket (this was the 90's remember?), and get ready for the half hour bus ride across town. If they're half as good as I remember, these things still ship. I try to find french toast sticks at the grocery store now as an adult, and every time I'm disappointed that they don't taste as good as they did when I was 11.

Love the French Toast Sticks!

These are a household favorite especially for my 2 year old. Will purchase again.
